Glycosade® mixing instructions:

Glycosade taken as a drink:

1. Measure the required amount of Glycosade into the shaker.
2. Add the liquid of your choice. Typically a sachet of Glycosade can be added to 100ml of cold water, milk or other suitable fluids.
3. Close the lid tightly and shake for 10 seconds.
4. Drink your Glycosade straight away.

Remember, do NOT cook, heat or warm your Glycosade!

Glycosade taken with food:

1. Add your required amount of Glycosade to 150-200ml of suitable yoghurt or cold custard/rice pudding.
2. Stir well until smooth with a fork or a small whisk.
3. Eat your Glycosade straight away.

Remember, do NOT cook, heat or warm your Glycosade!

Glycosade flavour creations!

Glycosade can easily be flavoured to meet individual taste preferences. Try mixing Glycosade with some of these ingredients to make your own flavour creation!

Always talk to your dietitian or doctor before making changes to your Glycosade regimen.

○ Shake with:

- Chilled unsweetened vanilla flavoured almond, hazelnut or coconut milk drink
- Chilled unsweetened vanilla flavoured soya or rice milk drink
- Sugar free flavoured waters or squash

○ Stir into:

- Suitable yoghurts and custards
- Suitable soy yoghurts and custards

○ Flavour with:

- Liquid water enhancers such as Go Splash™ and Robinsons® Squash'd™
- Sugar free coffee syrups such as Da Vinci® and Monin®
- Food flavouring oils and extracts
- Liquid sweeteners such as Stevia liquid sweetener drops (sweetener sucralose, available in some supermarkets and online)
- PB2 Powdered Peanut Butter (in original or chocolate flavour; available online)

The Glycosade recipe and mixing suggestions have been trialled using the ingredients/brands mentioned, however other similar products on the market may be used.

Please discuss the suitability of these with your Dietitian or Doctor.
